Junior Fullstack developer currently working for Arturia and seeking to develop its skill set and work with interesting people. I'm in love with music. I'm always either listening or playing some music.

WORK EXPERIENCE

Arturia

2022-2023

Web development internship

2023-Now

This internship led to a permanent contract

Mission: maintain and upgrade the Arturia website in an international environment. Reworked the website audio library. Implemented Google Analytics 4 tagging plan. Upgraded the website from vue2 to vue3.

Beelse

2021

Algorithmic internship

Mission: I developped a programm to analyze and repair 3D objects stored in STL files using javascript and the Three.js library.
